4. First Aid Measures

General Advice If medical advice is needed, have the product container or label at hand. Move the person out of the exposure area and take off contaminated clothing.

Inhalation Move to fresh air. Seek medical attention if symptoms persist.

Skin Contact Take off contaminated clothing and wash it before reuse. Wash skin with plenty of soap and water. If skin irritation or rash occurs, get medical advice.

Eye Contact Rinse with water for several minutes. Seek medical attention if irritation persists.

Ingestion Do NOT induce vomiting: vomit may enter the airways (aspiration hazard). Immediately call a POISON CENTER or doctor. If the person is conscious, rinse mouth with water. Never give anything by mouth to an unconscious person.

Most Important Symptoms Aspiration into the lungs may cause chemical pneumonitis; skin redness and irritation; allergic skin reaction (itching, rash).

Notes to Physician Treat symptomatically. If aspiration is suspected, monitor for respiratory symptoms; do not induce vomiting.

5. Firefighting Measures

Suitable Extinguishing Media Foam, carbon dioxide (CO_2), dry chemical powder, water spray.

Unsuitable Extinguishing Media Water jet (may spread fire).

Special Hazards Flammable liquid and vapour; vapours may form explosive mixtures with air. Flash point: 46 °C (closed cup, typical for the aromatic fraction). Combustion produces carbon oxides. Cool containers exposed to fire with water spray.

6. Accidental Release Measures

Personal Precautions	Remove all sources of ignition and ensure adequate ventilation. Avoid contact with skin and eyes. Use protective equipment. Caution: spilled product may create slippery surfaces.
Environmental Precautions	Prevent entry into drains, waterways, and soil. Expected to be biodegradable.
Containment and Cleanup	Absorb with inert absorbent material, sand, or earth. Dispose according to local regulations.

7. Handling and Storage

7.1 Precautions for Safe Handling

Avoid contact with skin and eyes. Wash hands thoroughly after handling. Keep away from heat, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharge. Avoid spills. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment; prevent entry into drains, waterways and soil.

7.2 Conditions for Safe Storage

Eye/Face Protection	Wear safety glasses with side shields (EN 166).
Hand Protection	Wear protective gloves (e.g. nitrile rubber, EN ISO 374-1).
Environmental Exposure Controls	Avoid release to the environment. Do not discharge the product, rinse water or cleaning water into drains, surface water or soil; collect spills and wastes for disposal (see Sections 6 and 13). Comply with the applicable environmental protection legislation.
